Key Fiscal Issues

Children's Administration:

Agency Request for 2007 Supplemental Budget

- Net change of \$172,000 in General Fund-State for caseload and utilization adjustments;
- \$887,000 General Fund-State, \$2.2 million Other Funds, and 3.1 FTEs for a variety of small funding changes;
- \$67,000 General Fund-State and \$28,000 Other Funds to conduct phase one of a Behavioral Rehabilitation/Child Placing Agency rate study.

Expenditure Tracking

C14 Family Support Services

(As of September 30th, was underspent by 25.2 percent) Family Support Services has been underspent by approximately 10 - 15 percent in prior budget periods. The program plans to increase spending through the use of clearer expectations of contractors, implementing Evidence-Based Practices and orienting staff to the usefulness of the new practices. In fact, two evidence-based programs will become available in December 2006, which will affect spending in the second half of the fiscal year.

C15 Transitional Services for Youth

(As of September 30th, was underspent by 11.8 percent) The under utilization of funding in this budget unit is due to the loss of a Crisis Residential Center in King County and a lack of other types of transitional service providers. A new deployment plan will increase use of this resource in Fiscal Year 2007.

Vulnerable Children and Adults

C18 Victim Assistance

(As of September 30th, was underspent by 19.3 percent) \$564,000 not spent in FY 2006 from the Domestic Violence Prevention Account as services were being developed by a work group of both internal and external partners and a solicitation was done. The other underspent area is Services for Sexually Aggressive youth. The process for obtaining this resource is quite complicated and makes it difficult to use the resources in a timely manner.

Aging & Developmental Services, Long Term Care:

Agency Request for 2007 Supplemental Budget

- Net change of \$(5.3) million in General Fund-State for caseload and utilization adjustments;
- \$110,000 in General Fund-State for various other items.

Expenditure Tracking

J70 Program Support Administration:

• (As of September 30th, was over-spent by nearly 12 percent.) In the 2005-07 Operating Budget, an appropriation of \$1.3 million and 8 FTEs were placed in the Administration and Supporting Services Division (Program 110) to perform additional collections for the Estate Recovery Program. However, to be consistent with the current practice, the expenditures were made in the Long Term Care program. Year-end transfers will reconcile the overspending in this program. Additionally, \$330,000 was spent in terminal leave for staff leaving the administration.

J82 Case Management/J83 Core Services Contract Management/J84 Nursing Services:

• As of September 30th, the combined allotments compared to combined expenditures reflect a positive variance to date of .6 percent, so no explanation is required.

J85 Caregiver Program:

• (As of September 30th, was underspent by 28.6 percent.) Expenditures are lagging behind the allotment.

J86 In-Home Worker Health Insurance:

• (As of September 30th, was underspent by 19.5 percent.) Two steps in the 2006 Supplemental budget were approved and increased the allotment by \$13.1 million for fiscal year 2006 to bring the allotment more in line with current and estimated future spending. Expenditures are lagging behind the allotment.

X65 Managed Care:

• (As of September 30th, was overspent by 10.5 percent.) The Caseload Forecast Council Workgroup is looking at all the forecasted budget units and making adjustments with the caseload and utilizations steps in the 2007 Supplemental budget.

General Fund - Private/Local:

• (As of September 30th, the appropriation is underspent by 24.8 percent.) The expenditures are coded to GF-State first and then transferred to the local appropriation. Fiscal staff is behind on the transfer step.

Vulnerable Children and Adults

Health Services Account (HSA):

(As of September 30th, the appropriation is overspent by 49 percent.) The HSA
account is used to fund Agency Provider Health Insurance and it is one of three
funding sources; all are captured in budget unit J86. The budget unit is not underspent, and any amount over the HSA appropriation will be transferred to GF-State.
Research is being done to determine why the accruals are all recorded in HSA and
the necessary adjustments will be made.

Aging & Developmental Services, Developmental Disabilities:

Agency Request for 2007 Supplemental Budget

- Net change of (\$744,000) in General Fund-State for caseload;
- \$7.7 million in General Fund-State and \$8.9 million in Other Funds to transition to a new services network operated by Department of Information Services;
- \$1.9 million in General Fund-State, \$1.9 million in Other Funds, and 1.5 FTEs for increased services for 16 individuals with developmental disabilities who are being released from state psychiatric hospitals;
- \$1.5 million in General Fund-State, \$1.5 million in Other Funds, and 30.5 FTEs for extraordinary costs associated with emergency short-term stays at the Residential Habilitation Centers;
- \$1.1 million General Fund-State and 4 FTEs for various other items.

Expenditure Tracking H10 Headquarters:

• (As of September 30th, was overspent by 36.9 percent.) The over-expenditures are caused by: terminal leave payments of \$170,000; HRMS costs of \$314,000; Microsoft Enterprise Licensing Agreement for \$250,000, and a suspense account that was not zeroed out for a lease-purchase agreement for computers of over \$180,000 that will be adjusted to zero. The program will manage discretionary spending to ensure the division is not overspent by the end of the biennium.

H20 Infant Toddler Early Intervention Program (ITEIP):

 (As of September 30th, was underspent by 11.3 percent. This program is 100 percent federal and the grant will be spent by the end of the biennium.

General Fund - Private/Local:

 (As of September 30th, was overspent by 18.5 percent.) Because of an increase in client participation in Residential Habilitation Centers, we are looking into ways to ask for more local authority.
